Thermal Imaging Training – 16th Oct-18th Feb

Book at www.openecohomes.org
Cambridge 2030
Meeting the zero carbon homes challenge

Julia King, Baroness Brown of Cambridge
Emma Davies, Greater Cambridge
Meredith Bowles, Mole Architects
Bart Hommels, Open Eco Homes host
Chris Brown, Igloo
The best way to celebrate the past is to live in the present and be ready for the future.
“If you aren’t in over your head, how do you know how tall you are?”

T.S. Eliot
To meet our zero carbon homes challenge we **all** need to get in over our heads
Not just to be able to live on planet earth, but to live better lives, be empowered, grow in confidence, do things we never expected we would do.

In other words to see how tall we are.
So... thanks to all the hosts, volunteers, sponsors and funders. This evening is a celebration of your commitment to growing taller and helping all of us do the same.
