Outline

1. Margaret Reynolds. Architect
Introduction to SWI, Local examples
2. Tim Acheson, Green Hat Construction
A Practical Guide to EWI on your home
3. Jason Palmer, Cambridge Architectural Research
Best Practice and Innovation
4. Discussion

Say

7.7m homes in GB have solid walls, so could in principle benefit from wall insulation, only 3% have installed wall insulation so far
This represents a major opportunity for reducing energy use and carbon emissions, and/or making homes more comfortable
But insulating walls can be disruptive, and there are lots of decisions to make – strategic and tactical
This evening will give you the information you need to make informed choices about how to insulate solid walls
